

Game Instruction

What's in the Box Challenge: Game Instruction

Contents: Challenge Box with built-in Timer, 20 Scorecard Sheets and Instruction.

Object of the game: Challenge your friends and family to guess what's inside the box.

How to play:

1. Decide if you'll be playing as singles or as teams. Each player/team gets a Score card.
2. Begin the game by searching for items in the house that you believe will stump the other players when the items are placed inside the box. Each player/team needs to find 2 items. Conceal your items in your pocket or bag from the rest of the players/teams.
3. Once every player/team has returned with 2 items, start by choosing the first player/team to be the "Challenger".
4. The Challenger places their first object in the box and closes the doors without letting anyone see it.
5. Each remaining player/team takes their turn as the "Guesser" by starting the 10 second timer, reaching into the sides to feel the hidden item and secretly writes down what they think is inside the box on their Scorecard. (If you are playing as teams, each member of the team gets to feel what's inside, but you are only permitted to write down one answer).
6. At the end of each round, the Challenger reveals What's in the Box Challenge and writes it down on their Score Card.
7. Each person/team takes turns revealing what they believed was in the box, starting with the first guesser. If correct, the Guesser marks on the Scorecard 1 point. For every wrong guess by a person or team, the Challenger/Team receives 1 point.
8. Continue to round 2 with the next player/team as the Challenger, placing their object in the box. Repeat steps 5-8. Continue these steps until all items have been placed in the box and all players/teams have made their guesses.
9. At the end of all of the rounds, total up each person/team's score to determine the winner!

More Fun Ideas!

- If you want to play more rounds, grab a pad of paper from home and continue keeping score!
- Play with two players or two teams with the doors open and watch each other feel the objects inside!
- Expect the unexpected! Make things really challenging by altering an object. Example: mashed-up banana or slime-covered toy.
- Who needs to keep score? What's in the Box Challenge is a super fun game to play with a large group by simply passing the Box around and guessing objects.

Warnings: Never place anything inside the box that can cause bodily injury or harm, such as sharp objects, chemicals, substances that are allergic, live animals, etc..

Caution: The bag provided is not for food storage use.
Wipe clean with damp cloth after use.
